PHOTOGRAPHY

WEDDING  
PHOTOGRAPHY IS  
ABOUT REAL MOMENTS  
PHOTOGRAPHED IN THE  
MOST BEAUTIFUL WAY  
POSSIBLE.

# WELCOME!

Thank you for your interest in Mario Oliveto Photography!

First off, congratulations on your engagement! I'm so excited that you are considering us to capture your special day!

Wedding photography is an extremely personal experience that my team and I take very seriously. Your day is about telling your story with an intimate, photojournalist (non posed), relaxed, approach, with a fine art style.

We work closely with you every step of the way to provide you with an enjoyable, highly personalized experience. After all, your story is one of a kind, your wedding photography should be as well!

We would love to learn more about you and your story, so reach out when you're ready to chat!

We look forward to hearing from you!

Cheers,

Mario.

## OUR APPROACH

Our approach is a little different than other photographers you may be looking at.

I like to keep things simple. We are full day coverage photographers. I think it is unfair to make my couples choose between 6, 8, or 10 hours of coverage.

There are no image counts, water marks, "printing credit" or hidden fees. Your edited photography is delivered in an online gallery and you maintain all rights to your images for download, sharing, and printing.

We always work in teams of two. We found that two shooters is the best way to capture all the emotion that is present during your day!

The only items that change the overall price will be if you choose to add an additional shooter, albums, rehearsal dinner, or an engagement sessions.
